

Help is On the Way!

I was doing some laundry when I lost my balance and fell, so I just kept pressing my LifeGard button". It wasn't long before help arrived and Mrs. Brown was treated and released from the hospital. "I had cut an artery and wouldn't have lived if I hadn't had help. I would tell anyone my age to get LifeGard".

Mrs. Frances Brown, Laurens S.C.

Protect yourself and those you love most with the LifeGardTM Personal Emergency System

from ProTec Services, a division of Laurens Electric Cooperative.

This easy-to-use, yet high-tech, system is the ideal solution for people with medical problems. LifeGard will allow you to remain independent - without fear - knowing that help is just the push of a button away.

Affordable and on the job 24 hours a day, 7 days a week, LifeGard will help protect you and yours. ProTec Services will provide an immediate response in case of a medical emergency. And for added value and reassurance, the system is equipped with a two-way voice module.

LifeGard will watch over you and stand guard in case of an emergency. Get the peace of mind you and your family deserve.

Get LifeGard today!
1-800-942-3141

LifeGard Features:

- Affordable
- Easy to use
- Includes a wireless panic button for summoning help from anywhere in the home
- Developed by the world's leading brand of wireless security systems

Help is Safely Within Reach

In addition to the tabletop unit, LifeGard comes complete with a portable panic button. You can carry it with you during the day, put it near the bed at night and keep it nearby while bathing. You can summon help immediately - whenever and wherever an emergency occurs.

Establish Vital Communication

The LifeGard System establishes instant, two-way communication during an alarm. You'll be able to talk directly to our UL certified Central Monitoring Station which will dispatch authorities and communicate with emergency personnel that are en route.

Cost:

- \$30 per month
- No installation fee*
- No contract required*

Who Can Use LifeGard?

- Anyone who requires some medical supervision, but not full-time attention
- Patients recovering at home after a hospital stay
- Nursing home patients who are independent, but still need some assistance
- People with disabilities

"The LifeGard System has a range of approximately 200 feet outside your home."

Sign up today! We'll make sure that help is on the way!
